

Alpine Hydro-Mill 315 AHM

Ref.	SHS-04
Manufacturer	Hosokawa
Model	Alpine Hydro-Mill 315 AHM
Serial No	M3 117 388/1
Material of construction	Standard with Polyurethane wear protection
Year of manufacture	2001
Working volume	60 litres
Sieve cylinder	0.2 mm with oblong openings
Milling balls	ZrO ₂ -Ce (Zirmil Saint Gobain)
Size of the balls	0.8 – 1.2 mm
Quantities of balls	60-80 % (36-48 l)
Closing system	Eagle Euroseals Double acting mechanical seal. Model GDD-090
Cooling of milling chamber	Jacket (Water Max 2 bar)
Motor	Flender Loher 45 KW 1500 rpm
Variable speed	100-1150 rpm
Control panel	Include the speed regulator , control system and electric switchgear
Previous use	Silicon Nitrides
